- PTT's dyskans LMS can be customised for your organisations needs. Some examples of customisation can include:
- Bespoke user interface – tailor the look and feel of the LMS to your corporate identity
- Integrate with an e-commerce solution – allow trainees to purchase additional courses through the LMS
- Add additional modules – you decide which additional modules will benefit your organisation. Examples include chat rooms, forums, news sources etc
- Integrate with other systems – dyskans can be customised to import/export course and trainee records in a format that is compatible with your current HR and administration systems
